EXPERIENCE

LINKEDIN/FREELANCE (WFH) — *Full Stack Developer*

May 2024 – Present

Delivered custom web applications for government and private organizations. Specialized in full-stack development, database design, and automated deployments. Actively learning cloud integration and advanced DevOps practices.

Tech: Laravel, Vue.js, MySQL, REST API

SES, CHINA (WFH) — *Full Stack Web Developer*

April 2023 – May 2024

Developed interactive design tools enabling customer product customization and automation of quotes and purchase orders.

Designed and managed relational databases to optimize data retrieval and integrity.

Planned project timelines, milestones, and release strategies for internal web applications.

Integrated APIs and improved data flow between front-end systems and backend storage.

Tech: Laravel, Vue.js, MySQL, REST API

AGRIBOOST, Butuan — *Web Developer (Project-Based Contract)*

June 2022 – March 2023

Collaborated with IT and operations teams to ensure stability of production environments.

Created and optimized SQL indexes to improve query performance by 30%.

Participated in agile software deployments and continuous improvements for public systems.

Developed data migration tools and scripts using SQL Loader for legacy systems.

Tech: Laravel, Vue.js, MySQL, Linux Server, SQL Loader

GRAMEEN FOUNDATION USA (WFH) — *Web Developer*

May 2021 – May 2022

Developed and maintained client-side and server-side business logic for global NGO platforms.

PROFILE SUMMARY

Full Stack Developer with 5+ years of experience designing, developing, and deploying scalable web applications for startups, government agencies, and private companies.

Proficient in Laravel, Nuxt.js, and Node.js, with strong expertise in database architecture, API development, and CI/CD automation.

Known for leading full project lifecycles — from planning and design to deployment and maintenance — with a focus on performance, reliability, and user-centered development

SKILLS

Frontend: Vue 3, Nuxt 3, JavaScript, ReactJS, AngularJS, NextJS, (ES6+), HTML5, CSS3, TailwindCSS

Backend: PHP (Laravel 10, CodeIgniter 4), Node.js, Express.js, NestJS

Database: MySQL, SQL Loader, Query Optimization

DevOps / Tools: Git, Docker, AWS EC2, CI/CD Pipelines, REST APIs

Other: Agile / Scrum, Project Planning, Documentation, Team Leadership

Designed and implemented data storage solutions for improved system performance.

Participated in CI/CD pipelines for faster deployment and rollback capabilities.

Collaborated with cross-functional teams to ensure efficient technical delivery.
Tech: Laravel, Vue.js, MySQL, GitHub Actions, Docker

DEPARTMENT OF HEALTH, Butuan — Web Developer

October 2019 – November 2020

Developed and maintained automation tools and scripts for engineering workflows.

Trained and oriented field engineers on the system's architecture and usage.

Worked on both frontend and backend components for internal tools.

Tech: CodeIgniter, jQuery, MySQL

DSWD (Kalahi CIDSS Program) , Butuan — Web Developer

February 2021 – October 2021

Designed and built a document tracking system focused on PR document workflows.

Debugged and maintained internal web applications to improve data accuracy.

Automated reporting tasks and optimized back-end logic for faster processing.

Tech: PHP (Laravel), JavaScript, MySQL

AGRIKULTURA Startup Project (Side Hustle), Butuan — Team Lead / Full Stack Developer

March 2018 – December 2021

Led the creation of an e-commerce platform for agricultural goods connecting farmers and buyers.

Developed scalable features, integrated payment gateways, and optimized performance.

Maintained documentation and ensured responsive, cross-browser-compatible design.

Collaborated with designers and developers to implement continuous delivery pipelines.

Tech: Laravel, Vue.js, MySQL, AWS, Docker

EDUCATION

CARAGA STATE UNIVERSITY, Butuan — Bachelor of Science in Information Technology

March 2014 - Aug 2019

PROJECTS

Freelance / Independent Developer (Various Clients) — 2018 – Present

AWARDS

Sports Awardee, Dance and Arts

Awardee, Leadership Awardee, Startup

Leaders Awardee

Delivered multiple custom web applications and internal systems for government, non-profit, and private organizations.

Specialized in full-stack development, database design, and deployment automation.
